

2024 DCYF Early Childhood Equity Grant Application Preview Guide

Introduction

This guide will help you put together your Early Childhood Equity Grant application.

To be eligible for funding, you must be an eligible program. That means you need to meet the eligibility requirements described below. You must also be proposing an eligible project, which means that what you want to do with the funding needs to be aligned with the legislature's goals for the funding. Finally, your Early Childhood Equity Grant application must be complete, which means that all the necessary questions must have answers, and the answers must meet certain standards.

All of the questions on the Early Childhood Equity Grant application are in this guide, as well as tips and materials to help you figure out what information each of your answers should include. Below each question is an example answer. Each question also has a checklist for you to follow when selecting or writing your answer. These checklists will help you make sure that your answer is complete and that what you are asking for fits within the rules we have for the grant funding.

Please note: the sample answers below are not intended to represent a full grant application and should not be copied. The sample answers are meant to represent the information that should be present in your answer to each question. Each sample answer may represent a different possible project or program.

Your application may be removed from consideration if your answers do not meet the criteria below. That means we will not be able to fund your request.

If you are unable to answer each question on the application to the standards described below, please contact our Technical Assistance partner for help before submitting your application. If you need help for any reason, or want someone to read through your answers before submitting them, we highly encourage you to reach out to Technical Assistance.

Technical assistance is paid for by DCYF and is available to all applicants. If you have any questions about this application, prioritization, the spending categories, or the grant process, please contact:

Competitive Grants

The Early Childhood Equity Grant is a competitive grant. That means that not everyone who applies will receive funding, even if they complete the application correctly and meet eligibility requirements. Applications will be selected based on prioritization and how well the proposed project meets the chosen goal.

During the last round, DCYF received 943 applications requesting over \$47 million. We were able to fund 65 applications using the \$3.4 million available. We have about three times the funding available for the 2024 Early Childhood Equity Grant, \$10.2 million, so we anticipate being able to fund significantly more applications.

Please evaluate your ability to plan and execute a project before deciding whether or not to apply.

Eligibility

The Early Childhood Equity Grant is awarded through a competitive grant process. Applying does not guarantee that an eligible provider will receive a grant award. It is likely that there will be a large number of applications that DCYF is unable to fund. Eligible applicants may only receive one Early Childhood Equity Grant every two years.

Eligibility is open to:

- Licensed, certified, or certified for payment only child care providers with an open license in good standing.
- License-exempt Family, Friend, and Neighbor (FFN) providers serving children receiving state subsidies.
- Licensed ECEAP/Early ECEAP sites
- ECEAP/Early ECEAP contractors
- Play and Learn Host Organizations recognized by Child Care Aware of Washington (CCA of WA) and currently receive funding and/or direct programming support from CCA of WA to actively provide direct and virtual education and materials to parents and FFN caregivers. This is the result of a contractual agreement between CCA of WA and the State of Washington and applies to Play and Learn Groups.

For licensed, certified, certified for payment only, and license-exempt providers: grants are awarded to a specific licensed facility/site, not a larger organization. Providers with multiple licensed locations will need to submit a separate application for each licensed site that qualifies to apply for a grant.

Unlicensed ECEAP sites may not apply for this grant. ECEAP Contractors may submit a single application with information on all sites included in their project

Licensed sites cannot receive Early Childhood Equity Grant Funding from both their contractor and directly from DCYF.

Facilities that are both licensed and serving ECEAP slots may apply on their own. Licensed sites cannot receive Early Childhood Equity Grant Funding from both their contractor and directly from DCYF.

Play and Learn groups should submit a single application per host organization, with information on all sites.

Prioritization Questions

Please answer the following questions about the children in your program. DCYF will use the information provided to prioritize awards, as described in the Early Childhood Equity Grant Manual, which will be available on our [website](#) when the grant application launches.

Question 7: You may request funding for a project with one of the following outcomes. All activities you request funding for should be related to the outcome you select. What is the intended outcome of your project?

- Preventing racial disparities in disciplinary action, such as suspension and expulsion
- Increasing the use of research-informed social-emotional teaching practices

- Other: another project to incorporate inclusive practices, culturally and linguistically supportive and relevant practices, or both into early learning program design, delivery, education, training, and/or evaluation. You must describe the intended outcome of your project.

Example answer: *Preventing racial disparities in disciplinary action, such as suspension and expulsion*

Your Answer Should

- Be the intended outcome of the project you are proposing

If you need help developing your project idea, please consult our TA partner: [Imagine Institute](#). Full contact information is listed above.

Question 8: If you selected other, please briefly describe the intended outcome of your project and how it helps support culturally responsive programming so that children have access to diverse care that meets their needs.

Example answer: See answers to question 7 above for an example of what your answer should look like

You Should

- Briefly describe the goal or intended outcome of the project you want funding to do
- Be the outcome of all of the activities for which you are requesting funding

If you are unsure how to briefly describe the intended outcome of your project, please consult our TA partner: [Imagine Institute](#). Full contact information is listed above.

Question 9: In 1-3 paragraphs, tell us what your project is. How will you use Early Childhood Equity Grant funding to make it happen? How will the project lead to the outcome you selected? Why is this a good project for your facility?

Example answer: My project will focus on preventing racial disparities in suspension and expulsion. We know that Black children are expelled from their early childhood education programs at much higher rates than non-Black children¹. We started tracking removals using child demographics in 2021, and discovered to our horror that this is also true at OUR FACILITY: 40% of suspensions and expulsions at our preschool have been Black boys, although they only make up 15% of our student population. We have started training our teachers on implicit bias, and have contracted with a child mental health expert who is on call to coach teachers about challenging behavior, but we continue to see higher expulsion rates. We are also conscious that, in addition to the racial disparities among the affected group, suspension and expulsion is traumatic for children and families and can contribute to negative life outcomes², so we want to stop doing it entirely. Our goal is to reduce suspensions and expulsions by 50% at the end of year one of the grant, and to fully eliminate suspensions and expulsions except in exceptional circumstances by the end of year 2.

We want to use the grant funding to extend our efforts to implement the Pyramid Model at OUR FACILITY. The Pyramid Model is a model for implementing evidence-based practices to: promote the social and emotional outcomes of all children; promote the skill development of children with social, emotional, and behavioral delays to prevent the need for more intensive supports; and intervene effectively when children have persistent challenging behavior. They offer online trainings and an optional cohort coaching. We are specifically interested in the Birth to 5, Trauma-Informed Care, and

Culturally Responsive Practices modules, along with the cohort coaching with each to assist in implementation. To assist in our learning, we also want to send a few staff members to the Northwest PBIS conference to learn more about implementing the Positive Behavior Interventions and Supports framework, which is related to the Pyramid Model. The conference features special sessions for early childhood educators. It will be held in Washington in 2024.

As part of implementing the Pyramid Model at our facility, we want to engage more with the families of children in our program. We plan to start sending home Pyramid Model resources for families, like the Backpack Connection newsletters, home with children in the language(s) that are appropriate for their parents. We also want to involve families in implementing supports for children exhibiting challenging behaviors, but we have several parents of children who speak languages that aren't spoken by staff, so we would like to contract with a local service that offers on-site interpretation, so we can have an interpreter attend meetings when necessary. This work to reform our school climate, provide additional training for teachers, and increase engagement with families, combined with the steps we have already taken, will help us eliminate suspension and expulsion by the end of the grant period.

Your Answer Must

- Address how your project will achieve your intended outcome.
- Describe how you will know your project has met your goal, including how you will evaluate your results
- Address how your project will integrate with your current programming
- Include all materials and activities that you are requesting funding for

A great answer will answer the following:

- What resources do you already have for that goal? What are you already doing to help you achieve it?
- Who will benefit from this funding? How will they benefit?
- What need is there for this? Who needs it?

Remember that reviewers will not be familiar with your program, and will only know what you write.

We highly encourage you to reach out to Technical Assistance at: [Imagine Institute](#). Full contact information is listed above. They can help you figure out how to describe your idea to our reviewers.

I will report to DCYF on how I spend the Early Childhood Equity Grant. This will include keeping receipts and documentation from all purchases made with this grant money, and also completing and submitting reports every 6 months using a survey that DCYF will provide.

I understand that DCYF may ask me to provide receipts for purchases made with money from this grant, and if I cannot provide these receipts and documentation when asked, I will be required to repay part or all of the grant money to the State of Washington.

If I do not comply with DCYF reporting requirements or cannot show that the funds were spent in accordance with my application, I am in violation of the terms of the Early Childhood Equity Grant and I will return the grant funds to DCYF.

If I close my license before the two-year cycle ends, I will return any unspent grant funds to DCYF. I will still be responsible to provide reporting and receipts to DCYF detailing funds I did spend, regardless of open or closed status.

I understand that my application will be denied if I have requested funding for any disallowed costs.

I understand that if my project is selected to receive funding, I will need to attend a special technical assistance session and pass a knowledge check about the grant process before I receive any money. DCYF will provide this session at no cost to me. If I do not attend the technical assistance session and pass the knowledge check, I will not receive the funds.

I have reviewed my application and am ready to submit. I understand that once my application is submitted I cannot make any changes to my answers.
