

# Language Access Plan Infographic

Did you know that more than 500,000 children and adults in Washington State speak a primary language other than English?<sup>1</sup>

DCYF is creating a Language Access Plan to help everyone get fair and timely access to programs and services in their language of preference.

## Plan Objectives:

### START A LANGUAGE ACCESS PROGRAM:

Assemble a Language Access Services Team to support our diverse community.

### INCLUSIVE PHONE SERVICES:

Ensure phone messages on main lines are available in both English and Spanish.

### EASY LANGUAGE ACCESS:

Simplify the process for obtaining an interpreter and translations.

### VITAL DOCUMENTS:

Identify vital documents to ensure they are translated and available.

### SPREAD THE WORD: SERVICES ARE FREE!

Promote the availability of free language assistance through social media, the DCYF website, newsletters and other forms of communications.

### ENHANCE THE COMPLAINT PROCESS:

Develop a fair and straightforward agency-wide process for receiving and addressing concerns.

### IMPROVE TECHNOLOGY RESOURCES:

Increase translated content on DCYF's website, making information on services accessible to all.

### CONNECT WITH THE COMMUNITY:

Foster relationships with community partners to support language access and gather feedback.

### DATA COLLECTION AND ANALYSIS:

Expand and improve data collection and analysis on languages spoken and community needs.

### CONTINUAL PLAN IMPROVEMENT:

Identify and use best practices to continually enhance the effectiveness of language services.
