

## Caregiver Guidelines For Foster Childhood Activities *To Assist In Caregiver Decision Making*

[RCW 74.13.710](#) authorizes caregivers to provide or withhold permission without prior approval of the CA worker or department to allow a child in their care to participate in normal childhood activities based on a reasonable and prudent standard. This standard is characterized by careful and thoughtful parental decisions intended to maintain a child’s health, safety, and best interest which encourage the child’s emotional growth and development.

A “normal childhood activity” includes age or developmentally appropriate “extracurricular, enrichment, and social activities, and may include overnight activities outside the direct supervision of the caregiver for period of over twenty-four hours and up to seventy-two hours. “Normal childhood activities within the described time frames, including being babysat do not require background checks or prior department approval. Licensed foster parents must still follow the minimum licensing requirements for child foster homes in WAC 388-148.

A youth in Extended Foster Care is a "child" for the purposes of the dependency and must comply with responsibilities in WAC 388-25-0546; otherwise the youth has the legal status and legal rights of an adult and is responsible for their actions.
